

Shawnee Mission School District
Head Count Enrollment
As of Monday, 9/20/2010

112 Briarwood

Prepared: 6/3/2011

This chart includes all students enrolled at the school. Many of the charts included in the Superintendent's Boundary Recommendation Report are based on students assigned to specific grade levels. Children in self-contained programs (e.g. certain special education and ELL programs) or private/parochial students who receive limited services are shown on this report. If you subtract the number of students in those categories from the total, you should agree to the September 20 number shown in the Superintendent's Boundary Recommendation Report.

Enrollment is based upon the state official count date of September 20. If school is not in session on that date, the count is made on the next day students are in attendance. The rightmost column reflects the expected count or actual count depending on the time of year. The audited head count is not typically completed until November of each year. Prior to that time, estimates are made.
